## 1. TALENT HUNT SHOW

Amidst rising huge amount of covid cases when the whole world had stopped, WE4YOU organised an online event where many competitions were held. A lot of kids including disabled ones as well participated and bagged many awards under the competitions creativity, dancing, painting, modelling, singing, etc. And showed immense talent. The kids performed extraordinarily.

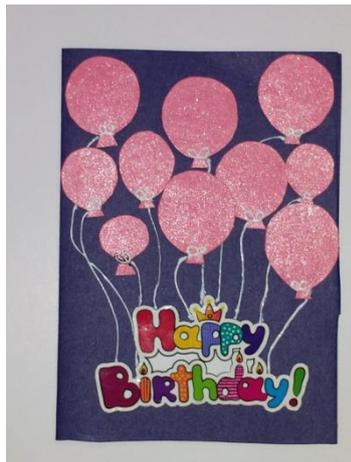

## 2. Computer training, Spoken English training and Personality Development training for the Visually Impaired Students.

WE4YOU has always believed that legitimate preparing can empower the outwardly hindered youngsters to remain against each difficulty of the general public and lead an existence with nobility and confidence. Covid has become the biggest barrier this year but it couldn't stop us from preparing the kids. Visually impaired students were prepared to further develop their delicate abilities, communications in English and Computer Information ideas through online mode. And were also provided with audio books and necessary guides. Krishna Moharana, Subhashree Kalia, Shaikh Abdul Rab, Anjana Sunil, Aseema Baral, were few of our top mentors who provided online spoken English lessons to the students.

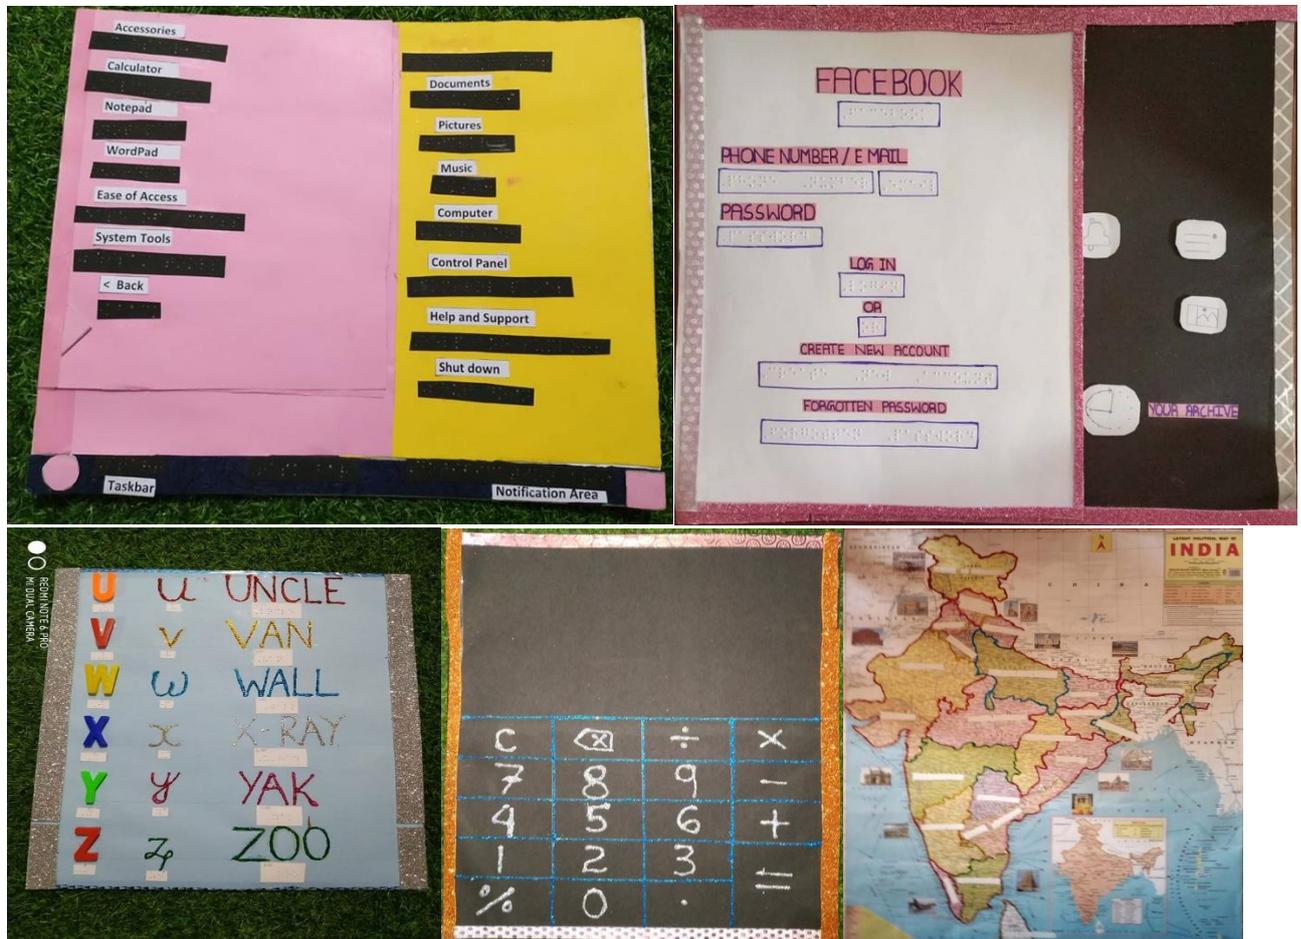

### 3. The Ability Bazar

Ability Bazaar is another drive initiated by WE4YOU, to sell and deal with the items made by people with disabilities. A striking advance to give a self economical life to pwds. The initiative was boost in backing up them. It began with cards, chocolates, bangles, candles, Incense sticks, Masks, Lemon grass oil, unadulterated Honey, phenyle, Soap, Liquid hand wash, Detergents and some more.

### 4. TACTILE BOOKS

After the huge demand and success from Audio Books, WE4YOU is now developing low budget Tactile Books for the Visually Impaired. Tactile Books being very costly are not easily accessible by the visually impaired students of Odisha. Tactile Books help the blind students have an in-depth understanding of the graphical or pictorial representation of the images or landscapes included in their Curriculums. Through the Tactile Book Project WE4YOU plan on helping the Visually Impaired Children a better understanding and proper insight.
